## South Pasadena Training

Our Virtual Enterprise program had the opportunity to travel to South Pasadena to take part in the “All Aboard the Leadership” training. This experience greatly impacted our employees as we had the opportunity to speak with other companies and learn from many speakers. The sessions taught our departments how to complete our job in the most successful ways possible to benefit our company. We are so thankful that South Pasadena opened up their campus to so many Virtual Enterprise students, it truly was a great experience!

## Warm Welcome From the CEO

I am very excited to announce the launch of our company, Safe N' Sound! With much diligence and determination, our team has created a company where our mission is to protect young men and women from the menacing threats surrounding us. The products we are providing offer safety with a discrete and modish aspect. With the remarkable motivation that the team carries to everyday production, I am confident that Safe N' Sound accessories will be prevalent in our society. Keep up the good work!

-Seleen Said

## Safety Tip of the Month!

If you are in hotel room whose door has a peephole without a cover, place a crumpled tissue in the peephole so that nobody can see in. Peephole one-way technology is not foolproof.

This safety tip was submitted by Natalie Scudder, HR Associate!

- Decorate any pumpkin using any materials you would like
  - Paint, carving, stickers, etc.
